Demonstrating the Wonderful BUYING and SELLING Power of Our Organization

Thousands of Dollars' Worth of Perfect Merchandise at Lowest Possible Prices

ANUFACTURERS throughout the United States had looked forward to a tremendous season's business among the large retailers, but same did not consummate, as you well know by the numerous failures of several of ANCEACTURERS throughout the United States had looked forward to a tremendous season's business among the large retailers, but same did not consummate, as you well know by the numerous failures of several of the largest stores, who were driven to the wall by backward trade conditions. In anticipation of this big season's business, which was not forthcoming, the average manufacturer made up an overproduction of stock, which was left on their hands, and had to be unloaded regardless of cost. Knowing that this condition prevailed, we inserted the accompanying ad in one of this country's leading trade papers. "The Dry Goods Economist," with the result that we were overwhelmed with offers of merchandise at prices which, under ordinary conditions, would be impossible.

We Are Resolved to Eclipse the Business of Any Month of June in Our History

The entire store, every department, from the first floor to the fourth, swings cagerly and triumphantly into the spirit of the hour with merchandise bought at prices much less than regular, and which, beginning tomorrow we will place on sale at prices showing the same proportionate savings to you.

Each Day Will Bring Forth New Offerings-WATCH THE DAILY PAPERS-It Will Pay You Well to Do So

No jobbers' stocks have received consideration. Manufacturers make a profit when they sell the jobber. We have eliminated this Middleman's Profit by dealing direct with the makers and mills; therefore insuring us Lowest Possible Cost and insuring you Lowest Possible Prices.
